DETAILED ACTION

Allowable Subject Matter

1. Claims 1-2 and 4-21 are allowed.

The following is a statement of reasons for allowance:

As for independent claims 1, 6, 9, 12, 15 and 18, it discloses a method, apparatus and system for specifying arbitrary words in rule-based grammars. Prior art such as Schmid, Beutnagel and Evans teach a similar method, apparatus and system but fails to specifically teach a method, apparatus and system wherein the generic and non-generic words that are part of a particular application are assigned a higher confidence level than the generic and non-generic words that are not part of the particular application, thereby bypassing the need to specify all possibilities of spoken words at the time a rule-based grammar is written.

Dependent claims 2, 4-5, 7-8, 10-11, 13-14, 16-17 and 19-21 are allowed because they further limit their parent claims.
